

VOTE XIAO LIN FOR JCR TREASURER

EXPERIENCE

I'm the Secretary for the Cambridge University Photographic Society and our very small committee of three people has meant that I've stepped into the shoes of various roles, taking on duties including managing accounts, appointing a new Senior Treasurer, organizing social events and publicity, and presenting an annual report to CUSU.

Being JCR Treasurer is something I would really enjoy, and as an economically mindful Chemical Engineer I am well suited to the duties of budgeting, managing expenses and upkeep of the JCR facilities (I live above the JCR so I'll immediately notice anything!).

INITIATIVES

If elected, I would also try and implement quality of life improvements such as a webcam for the servery queue in the evenings, and better publicity of college grants such as those for books, travel, sports, vacation residence and hardship. The Old JCR had a coffee machine in the quiet room that was very popular, and I would look into having it reinstalled in the new JCR, or finding another way of having access to it.

Much progress has been made in the past year with moving the accounts and butterfly statements online, and I would keep the ball rolling by creating petitions for any new suggestions, such as the ability to pay college bills by direct debit, to save the hassle of having to rush to make bank transfers or writing cheques (or bringing a suitcase full of cash to the office) at short notice during a busy period of term.
