CLIFFORD ROBINSON FOR JCR TREASURER

Experience

I have been involved in committee roles outside of the JCR for the past two years. Last year, I was a schools liaison for a student-run Model United Nations conference for international school students. Whilst in this role, I also took over the treasurer's role when he was no longer able to fill it, giving me experience of handling budgets. More recently, I have worked in a team of students to investigate a funding project for a charity. This involved a lot of team communication, making me suited to working with other JCR committee roles when it comes to budgeting and expenses.

Finally, being JCR treasurer, of course, requires being a good bookkeeper on excel which the Phys Natsci course has made me spend many, many hours working on.
